PROJECTS

Personal Portfolio Website

August 2025 – Currently

Angular

Personal portfolio developed with Angular, featuring a dynamic and responsive design that highlights my projects and skills. Built with reusable components, optimized performance, and intuitive navigation, it reflects my expertise in modern web development and scalable solutions.

[Portfolio](#)

Job Board Platform

June 2025 – August 2025

Spring Boot · Angular · PostgreSQL · JWT · Google OAuth2

- Developed a job board platform for browsing job postings, applying for positions and more.
- Implemented secure user authentication using JWT and Google OAuth2.
- Enabled asynchronous email notifications.

[GitHub Backend](#) | [GitHub Frontend](#)

Tourist Agency Management System

May 2025 – June 2025

Spring Boot · Angular · PostgreSQL · JWT

- Created a platform for booking services and travel packages.
- Admin features to manage users, services, and reservations.
- Clean, responsive UI and secure backend integration.

[GitHub Backend](#) | [GitHub Frontend](#)

Hospital Management System

March 2025 – May 2025

Spring Boot · Angular · PostgreSQL · JWT

- Developed a full-stack web application to manage appointments, schedules, and roles (admin, doctor, patient).
- Implemented JWT-based authentication and secure role-based access.
- RESTful API integrated with a dynamic Angular frontend.
